

David,

Again, thanks! Your inspection gave us peace of mind that our home is in fact in good shape. And I appreciate your taking the time to pass on the many homeowner tips.

You can send your report to me at the above email address.

Regards,

James C. Clapp
COL, USA (Ret.)

David,

This is a hell-of-a-report. Haven't read it in detail, but will soon. Thanks for the thorough job! If I have any questions, I'll call or email you.

Thanks,

James G. Clapp

David:

Thank you for a wonderful job. Alicia said you were absolutely wonderful.

Please send me a copy of your invoice. I will pay it today.

Send Alecia a copy of your report.

1. All HO complaints. Which ones are within spec. or not covered for whatever reason.
2. Complaints that the Builder should fix and a simple method to bring these within Spec.

Please send a copy of the report to Zoe at StrucSure.

Thanks,

Charles A. Sinclair

David:

It was very nice to meet you today and I appreciate the thorough job you did. Please let me know when the report is ready.

Thanks,

Jan Lowery

David,

Thank you for the quick response on the home inspection report. My only question is on the Breaker panel. I know the old Federal Pacific Breaker Panels were considered dangerous because of overheating and fire hazard, but is that the same problem on this one. Do you think we need to replace it, or what would your recommendation be as far as the panel box.

Thanks,

Kathy Hadlock/Aiken Real Estate Co.
